📁 PROFESSIONAL EXPERIENCE

Project Manager

123 Seguros

03/2025 | Remote

Managed technology projects from defining objectives, scope, and deliverables to planning and executing work plans. Experienced in team coordination, ensuring deadlines are met. Facilitated communication between business, technology, and support areas, aligning with company strategic goals. Monitored and controlled project progress, managed risks, resolved unexpected issues, and prepared progress reports for different departments. Negotiated priorities to ensure each delivery met requirements and expectations.

Team Leader

JBKnowledge

04/2023 – 03/2025 | Remote

Problem-solving, leadership of multidisciplinary teams, project coordination and planning. Led the QA area, overseeing processes and supporting different line teams. Responsible for production releases, pipeline setup via Azure DevOps, and SOC Compliance documentation. Conducted smoke testing during sprints and regression testing at the end.

Teaching Assistant (JTP)

UNSTA – Universidad del Norte Santo Tomás de Aquino

02/2013 | Yerba Buena, Tucumán, Argentina

Taught theoretical and practical classes in subjects such as Teleinformatics, Data Communication, Operations Research, and Fundamentals of Quality Management.

QA Automation Engineer

JBKnowledge

10/2022 – 04/2023 | Remote

Designed, developed, and executed automated test scripts using tools such as Selenium and Postman for API testing. Also participated in the planning and design of automated testing strategies.

Manual QA Tester

Javier Balardini Soluciones Integrales

07/2015 – 09/2019 | San Miguel de Tucumán, Argentina

Strong background in manual quality assurance with a meticulous and detail-oriented approach. Advanced skills in identifying and documenting test cases, executing functional and regression tests, and reporting defects in detail.

ASP.Net & SQL Developer – Manual QA (Internship)

Convey

03/2011 – 03/2012 | San Miguel de Tucumán, Argentina

Gained experience in creating and maintaining test plans, as well as closely collaborating with development teams to ensure the delivery of high-quality software.
